

“FOR THE BEST TIMES OF YOUR LIFE!”

Sarasota, Florida December 2022

President's Message by Mike A.

Happy Holidays,

I would like to start off my last President's Message with a heartfelt thank you to Jerry U., Ron G., and Mike M. for showing up early and helping me to set up the pavilion for the Fall Picnic at Coquina Beach. Also, a *shout out* to Bill P. for keeping track of the menu for us. The weather cooperated this year, we had a good turnout, and there was a lot of tasty food shared in brotherhood. So, thank you, everyone.

That leaves just one big event for the year: The Holiday Dinner-Dance on December 17th. By the time this message is published in our monthly newsletter, the deadline for reservations will have passed. I hope you heeded all my previous warnings and got your tickets early. I am looking forward to seeing you on the dance floor at the Peridia Country Club.

As I previously mentioned, this will be my last message as I will not be running for the Board of Directors next year. I have been on the BOD for seven of the last eight years and it is time for me to kick back and enjoy our club and members without having to worry about event planning or logistics.

The new Board, however, will need your help. Please consider answering the call to serve on Committees, help set-up or tear-down events, or even serve on the Board yourself. We are getting ready to finish the voting for the new Board in a couple of weeks and they really could use your support going into the New Year. May it be your best year ever!

Mike

Who We Are

Prime Timers Sarasota is a non-partisan social club for gay, bisexual, transgender or transitioning men over 21. In addition to our Fall Picnic and Holiday Party, each month we offer a potluck supper, two luncheons at area restaurants, a members' meeting with a speaker, home nights with games or movies, and day trips by bus or car pool to unique Florida Sun Coast attractions. Our social events are chosen to fit individual needs, priorities and affordability. Equally important is our commitment to Care and Support, where members assist one another with activities and needs of daily living. If a member is ill, injured or otherwise incapacitated, he can reach out for assistance to members nearby to help him with activities such as shopping, transportation, moral support, or help at home.

ALL FAITHS FOOD BANK

With the Holidays knocking at our door, a common sentiment for us can be a deep sense of gratitude for our many blessings. One way to express that gratitude is to respond to the needs of those in our community who may not be as blessed as we are. That's why I'm very proud of our Prime Timers group in making our only charity outreach the support of the All Faiths Food Bank. A recent note to us from the Chief Executive Officer reads, "Thank you for being a Hunger Hero! With your recent gift of \$125.00, we will have the resources to lift children, families, seniors, and veterans from poverty and help them to enjoy a healthier tomorrow."

Their recent newsletter tells us of Amanda's story. Amanda works two jobs – for the County in building maintenance and part-time at Starbucks – to provide for her sons, Andrew and Daniel. Even with two jobs, it's difficult to cover the cost of raising a family on her own, especially during the holiday breaks when kids can't access school meals. Because we choose to give, she doesn't have to worry as much about her grocery budget. She can pick up nutritious food from All Faiths Food Bank's mobile food pantry at Riverview High School. Amanda found out about the food pantry last October and is grateful to have help filling her family's table. We can send our help for people like Amanda by mailing our gift to All Faiths Food Bank, 8171 Blaikie Ct., Sarasota, Florida 34240. Be sure to note on your check *Prime Timers of Sarasota*. Holiday joy and blessings to you all.

THE YING AND THE YANG OF AGING (THE BRIGHT AND DARK SIDES)

Michael S., Director Emeritus
Prime Timers Worldwide

I remember a visit with my mother about five years ago. It was memorable because she hauled out her old hand-written *telephone book*. She leafed through the pages to show me all the names that now had lines drawn through them. These represented friends who had passed away. She remarked that soon the book would have even more lines.

Growing old can be wonderful. It can be the time to retire. It could be the time to explore new hobbies. At last, we could visit all the places about which we studied during our lifetime. It can also be the time to connect with distant relatives who we think about but don't get around to calling them. Now would be the time to make new acquaintances. We even would have the luxury to just sit around doing nothing. This is the bright side.

The dark side is finding that the old body no longer has the get up and go and spontaneity it once did. The mind wants to go but the aging *machine* needs a jump start! Another dark side is the loss of lifelong friends and family members. As my mother has learned, the longer one lives, the more friends one loses.

These past two years have seen, for me, the loss of so many friends and Prime Timers. I recently cleaned out my computer contacts and I was shocked to see how many of them are no longer with us. Covid claimed some friends but aging and the passing of time were the biggest culprits.

Last week we returned from a Prime Timers cruise; the first in three years. I realized on the cruise just how many fellow travelers were no longer with us. I missed all the special qualities each possessed. The spark was missing. This is, indeed, the dark side. I am grateful and celebrate those of us still around and who are able to travel. I encourage you to participate in as many activities as you can fit into your lives each and every day. If you're not up to traveling, then tailor your activities, such as just getting together for a drink or coffee and continuing to remember to phone our friends.

NOVEMBER 13TH-19TH WAS TRANSGENDER AWARENESS WEEK

By Tom P.

This week was to bring attention to the Transgender community by educating the public about who transgender people are, sharing their stories and experiences, and advancing advocacy around the issues of prejudice, discrimination and violence that affect the transgender community. Each year has a theme and this year it is "Joy in spite of" Approximately 1.6 million people in the United States identify as being transgender. In preparing this article for the newsletter, I had the opportunity and pleasure of talking with Colette who is a coworker in Elevance Healthcare. Colette has been through the total experience of becoming a transgender woman. As with many people in the LGBTQ community, Colette went through denial of who she really was, fear of disclosure and, finally, self-acceptance. This is not an easy process because almost our entire societal environment is comprised of binary, heterosexual people. As with some LGBTQ members, she tried to be a binary, heterosexual person, but the exception for her was that the role of being male just never seem to fit. Acceptance, for her, began by working with a psychiatrist, who presented to her the idea that she may be transgender. She grew to accept this possibility, started hormone therapy, and then, completed the appropriate gender transitional surgeries.

I asked Colette what she would want people to do when they met her as a transgender woman. Her answer was simple. Be willing to try to understand who she is and be transparent to others that she is a woman. In regard to the theme of "Joy in spite of ...," she replied, I appreciate and recognize how heroic today's youth and young adults are, to be out, loud and proud. She described them as extremely brave and courageous.

Through this conversation, I re-learned that, although we may look differently on the outside, we are all the same inside. Colette and I had many similar experiences in our trip through life and I was reminded of a saying

from EST (Erhard Seminars training), “I used to be different, now I’m the same.” Many of us try to be someone who our social environment believes we are or who thinks we ought to be, but when we accept and live as who we *really* are, then we are the same.

At the end of Transgender Awareness Week, on November 20th, there was a day of remembrance for the people who have died in anti-transgender violence this past year. The Human Rights Campaign (HRC) announced on November 16th that 32 transgender people have died in the last year. May their sacrifice be not in vain but be a major step in the progression to acceptance of who each of us really are.

Thank you, Colette, for sharing your journey with me. I believe that we have achieved one of the goals of transgender awareness week by educating the public about who transgender people are and by sharing their stories and experiences.
